The set can be used in one to one settings and for group work – you can select individual mats or groups of mats to help achieve particular goals. ... use the mats against a wall, on the floor or in the centre of a room. Use with mirrors, or remove them and use the blocks plain, or add your own sensory materials.

ASSEMBLY

Three panels have "wing" tabs on the left hand side. Start with these and make a run of 3 etc, by connecting one to another. Ensure the panels are the right way up with the wing tabs on the left so you can add extra panels to make a box/house for example i.e floor pads or roof. Additional panels have 3 side single tabs.
